Hello every one. I am a new researcher working on DHS of four countries. I am new to DHS and SAS i am scared of DHS data sets however i tried to read all the docs. I have to started with making cross tabs among the variables of my interest. Can any one help me please on how should i start analyzing my data? and if anyone knows about the SAS commands for cross-tabs. if anyone already experienced can tell me how to start...

srawat

Dear User,

We have several resources, including videos on our website which will help you get started with analyzing your data. Try looking at "Using Datasets for Analysis"

<http://dhsprogram.com/data/Using-Datasets-for-Analysis.cfm>. If you still have questions, feel free to post again. Thank you!
