I am a journalist in Kenya and I would like to write a story about the fertility decline. Can you point me towards some resources?

All of our reports are available on the MEASURE DHS website. Begin by finding the 2008-09 Kenya DHS and its associated dissemination materials, which are a bit less dense. A summary of all of the publications for the 2008-09 KDHS are located on the survey summary page. Here you will also find our official press release and other stories that have already been written using 2008-09 KDHS data. A general guide for journalists using DHS data is available in our News Room, and the handy Journalists' Guide to the DHS can be downloaded as well.
