please can you help me for having data from surveys in sub Saharan countries which concerning children's work?
the topic of my research is "effects of children's work to their own health"

Dear User,
From our website <http://dhsprogram.com/> you can do a survey search and find surveys containing questions on "Child Labor". From our main page, click on "Survey Search", Click on "Survey Characteristics", Click on "Child Labor" and start search. the link to register for datasets is <http://dhsprogram.com/data/new-user-registration.cfm>
Thank you!
