Hello,

I am working with the 2007 Liberia DHS dataset. I have been able to find the response rates for the women's questionnaire as a whole in the final report. However, I am having trouble finding what the women's response rates are for the domestic violence module in particular. Could you advise on where I could get this information?

Thank you!

Dear User,
Here is a response from one of our experts, Mr. Trevor Croft:

Please look at the un-weighted frequency for V044
Item V044: Selection for domestic violence module
... tbd-name: '.RECODE5.REC01.V044'

Categories	Frequency	CumFreq	%	Cum %
0 Woman not selected	2097	2097	29.6	29.6
1 Woman selected and interview	4913	7010	69.3	98.8
2 Woman selected, but privacy	29	7039	0.4	99.3
3 Woman selected, but not inte	53	7092	0.7	100.0
TOTAL	7092	7092	100.0	100.0

Response rate = 4913 / 4995 = 98.4%
