Dear Sirs,

When will the data set of Egypt DHS 2014 be available for download by researchers? And will a GPS dataset be available as well for download (like Egypt DHS 2000 and 2008)?

Thank you.

Amira

DHS datasets are not available until the final report is released for a particular survey. It's very difficult to anticipate when final reports and/or datasets will be available, as their release is contingent upon a multitude of factors. We do not yet have a date, however, you can sign up for data alerts, so you will be sure to know as soon as they are released:

<http://dhsprogram.com/email-subscribe.cfm>

GPS/Georeferenced data were collected, and will most likely become available at the same time the survey data are released.

Dear Bridgette,

Thank you for your email.

What is the time framework of the publishing of Egypt DHS 2014 data? For example, is it 3-6 months or maybe a year?

Sincerely,  
Amira

Dear Amira,

We cannot provide a time frame for the publishing of the 2014 Egypt DHS data. As Bridgette stated in her reply, "It's very difficult to anticipate when final reports and/or datasets will be available, as their release is contingent upon a multitude of factors." Additionally, we do not want to provide a time frame and then fail to release the report/data within that time. However, we are glad that you are so eager to use the new Egypt data.

Thanks,  
Sarah-DHS
