To Whom It May Concern:

I would like to obtain information for the following Egypt 2008 DHS question, "In the past 6 months, have you heard, seen or received any information on HIV/AIDS" from the 2005 DHS. However, in the dataset, the variables m58_1 - m58_6, which seem to correspond to this question, have no observations. Can someone please tell me how I can obtain the information to this variable? I am interested in looking at how these results are linked with the question that is asked after it, which is on the source of the individual's encounter with information on HIV/AIDS.

Thank you.

Catherine N.

Dear User,

You can find that variable I417 in the EGOD5A.zip file for the Egypt DHS 2008. We do not have the variable in a recode format as it appears in a separate questionnaire, called the Health Issues Questionnaire. You can find it in the map file distributed with the data.

Quote:I417 In the last 6 months have you heard, seen, or received any information about HIV/AIDS

- 1 Yes
- 2 No
- 8 Not sure
- (m) 9 Missing
- (na)

In the Egypt DHS 2005, the raw variable Q1125 "In the last 6 months have you heard, seen, or received any information about HIV/AIDS?" was recoded as follows and is country-specific

s1126a - s1126j, s1126x - s1126z

Quote: if W1125=8 then

```
s1126a=0;  
s1126b=0;  
s1126c=0;

I hope this answers your question. If you have additional questions, please post again. Thank you!
