Hi everyone. I am writing PHD thesis on the Effect of fertility on the health of mothers and children welfare in Tanzania. First I would like to estimate theeffect of socio-economic and demographic factors on fertility and maternal health status and then effect of fertility on maternal health status and child welfare using mchild malnutrition and school attendance in Tanzania. Which files do I use

Dear User,

Please refer to the section on dataset types

http://www.dhsprogram.com/data/Dataset-Types.cfm#CP_JUMP_6015 and also to the section on Using Data for Analysis http://dhsprogram.com/data/Using-Datasets-for-Analysis.cfm. After reading this, if you still have questions, please feel free to post again. Thank you!
