When will the GPS data for Burundi MIS 2012 become available? The survey datasets are already online but not the GPS dataset. Thanks, Emily

The GPS dataset for the Burundi 2012 MIS is now available online for download. Please log on to your dataset access account at http://www.dhsprogram.com/data/dataset_admin/, select "Request additional countries or datasets for existing projects," check the geographic dataset for Burundi 2012, update your project description to include a short note about how you plan to use the GPS data, and submit the request.
