Hi,

I am using DHS 2011 data from Nepal and need to identify which districts correspond to the district numbers in the data. I found an old question related to this in the forum and tried to contact the implementing agency as recommended. However, the email address has been deactivated and I haven't been able to get in touch with the agency through other channels.

Is there any other way I can locate the district names?

Thank you!

Thanks, but the report doesn't have this information. I will reach out to the person you mentioned.

My apologies! I meant you could get the contact information from the report, not the district codes.
