Subject: Linking SPA & DHS data
Posted by Mercysh on Mon, 04 Jan 2016 06:14:51 GMT

Compliments of the season.

Please help me, I am using sample domain linkage to link Malawi 2010 DHS and SPA 2013/4 datasets. My analysis is at district level. I want to drop from the analysis Likoma district, which is an island. My problem is that in the DHS data it is combined with Nkhata bay, another district.

Thank you
