Hello,

I am carrying out a study using the Zambia 2013-2014 DHS dataset for women. Please could you send me ethics approval documents for the Zambia survey?

Also, do I need to obtain separate ethics approval considering I am only using the secondary data?

Regards

Chilaba

Hello,
I have a similar issue. I need information about the Ethical Review Committees that approved the protocol for the 2007 Ghana Maternal Health Survey. I have combed through the report but it hasn't been stated. I have seen several messages on the forum asking but I guess most times DHS team members respond directly to those who asked. I am hoping I can get help with this information as well.

Thanks!
AB
