Hi Guys

How to Generate individual number from an Visiting Point Number Automatically,
so that it can be linked to the HouseHold and Individual.

Regards,

Thabiso

I'm sorry, but we don't understand your question. What is a visiting point number? Please
provide much more information on what you are trying to do.

struggling to get a logic code on how to generate an individual number from
Combination of EA / VPN / Person number/ 1000 = EA VPN 20 / Person Number 1 = 1000201 to
generate an individual number automatically from this (1000201)
To make it 1000201(2341=individual number for each person)
          (2342=individual number for each person) and so forth..
