Hi,

In the 2010 Afghan Mortality Survey one specific migration section has been included asking basic characteristics about household members who moved out of the household between 2005-2010.

I was wondering if the Afghanistan DHS 2015 also included a migration section similar to the 2010 Afghan Mortality Survey?

If not, have other migration related questions been asked about the respondents or about household members?

Many thanks in advance!

Kind regards,

Inez

Following is a response from Senior DHS Specialist, Anjushree Pradhan:

The current 2015 Afghanistan DHS does not include a module on migration, as is the case in the Afghanistan 2010 survey. The 2015 survey only has a standard question on whether the husband is living with the respondent, or if he is living elsewhere.

Ok, thank you for your fast response!

Best,

Inez
