Hi Team,

I am using the Uganda DHS 2011 dataset- womens file, to explore childbearing preferences. Is the question (v605) asked to only currently married women?

Thanks,

Patricia

Dear User,

It is asked of all eligible women (de facto) interviewed for the survey. V605 comes from V602 and V604 which in turn are recoded from Q703, Q704, Q705U, Q705N in the questionnaire

Thank you!
