Good day All,

Hope this meets you well?

Sometime ago, I got authorization to download the DHS 2013 data for a project I worked on at that time.

Please, do I need to make another request to have access(and download) to the same data for another project.

In a nutshell, what are the authorization process involve for data re-use?

Regards,

Ayo.

Dear User,
To use the DHS data you already downloaded for another purpose/project, a new research project should be submitted using the "Create A New Project" link in your user account. The DHS Program will normally review all data requests within 24 hours (Monday - Friday) and provide notification if access has been granted or additional information is needed.
Thank you!
