Hello,

I am wondering if there is an estimate of when the data file for Guatemala's 2014-2015 ENSMI/DHS will be available.

Thanks!

~Kirsten

DHS datasets are available after the final report is released for a particular survey. However, it's difficult to anticipate when final reports and/or datasets will be available, as their release depends on several factors. The data are generally released approximately 9-12 months after the last day of fieldwork, and on or after the publication of the final country report.

In the meantime, please sign up for "data availability email alerts", so you will be notified as soon as data are released <http://dhsprogram.com/email-subscribe.cfm>
