Hello

I am working on Under 5 Mortality for Nepal. I need to calculate date of birth for the children. The problem is: dates are in Nepali Calendar. can anybody please guide me how to convert them to exact English calendar dates in SPSS

Looking for reply

Regards

Dear User,

For analysis purposes please use the Century Month Codes. There is a description of Century Month Codes and how to use them in the DHS Standard Recode Manual [http://www.dhsprogram.com/publications/publication-dhsg4-dhs-questi onnaires-and-manuals.cfm](http://www.dhsprogram.com/publications/publication-dhsg4-dhs-questi%20naires-and-manuals.cfm) beginning on Page 5. After reviewing this section, if you still have additional questions, please feel free to post again.

Thank you!
