Dear all,

I am trying to replicate table 5.2 as shown in Nepal DHS 2011 using stata program. I checked all the previous relevant posts to calculate Total Fertility Rate but still finding hard to calculate.

Can anyone please help me to calculate this?

Regards

Sammy

Dear User,
Can you please post your code? Maybe another user can help based on your existing code?
Thank you!

Dear liz,

The attached is the do file I found and used for Nepal DHS to calculate fertility rate but could not compute them.

Your help would be great.

Thank you.
