I wanted to look at tobacco use in Tchad among men and women using Stata, so I downloaded the individual and men's recode files (TDIR71FL and TDMR71FL respectively). However, both files claim to have no observations for the tobacco variables (v463a etc.). Did I download the wrong files?

Dear User,
Tchad DHS 2014 did have some questions about tobacco use at the household level.

Quote:
5 - CONSOMMATION DE TABAC ET ALCOOL
Maintenant je voudrais vous poser des questions sur la consommation de tabac et d'alcool par les membres de votre ménage.
QH231 Est-ce que (NOM) fume actuellement des cigarettes ?
QH232 Environ, combien de cigarettes fume (NOM) par jour?
QH233 Est-ce que actuellement (NOM) fume ou utilise du tabac sous d'autres formes ?
QH234 Sous quel d'autre forme, (NOM) fume ou utilise du tabac?

The variables are country-specific and are:
SH231
SH232
SH233
SH234A Smokes pipe
SH234B Smokes cigars
SH234C Uses chewing tobacco
SH234D Uses snuff
SH234E Smokes other
SH234Z Don't know type of tobacco

Hope this helps.
Thank you for your post.
