hello dhs

pls have been given access to download data for my project on child anthropometric (stunting, wasting and underweight) and the factors in Nigeria affecting them so as to use it for regression analysis. But I don't know the data related to all these and I don't know how to download it yet. pls help me out, as it will be highly appreciated

Dear User,

Go to the DHSProgram website <http://dhsprogram.com/>

Click on "Data" then click on "Download Datasets" and follow the prompts.

Dear User,

Which Nigeria dataset are you working with? Look at the variables in RECH6. These are the height and weight variables in the household for children.

Other resources to help our users are The Guide to DHS Statistics <http://www.dhsprogram.com/publications/publication-dhsg1-dhs-questi>

[onnaires-and-manuals.cfm](http://www.dhsprogram.com/publications/publication-dhsg1-dhs-questi), The Standard Recode Manual <http://www.dhsprogram.com/publications/publication-dhsg4-dhs-questi>

[onnaires-and-Manuals.cfm](http://www.dhsprogram.com/publications/publication-dhsg4-dhs-questi), A

new series of YouTube Videos

The video series covers making sure you have the correct....

Video 1: Data File and Denominator

Video 2: Variables

Video 3: Recoding and Weights

Video 4: Software Specific Codes and Tabulation Commands

Hello Liz,

Pls I need your help on getting which variable is for location like the (urban and rural area)

Thanks for your support

Dear User,

From Page 10 of the Standard Recode Manual (referenced in response to one of your posts)

<http://dhsprogram.com/publications/publication-DHSG4-DHS-Questionnaires-and-Manuals.cfm>

HV025 Type of place of residence where the household resides as either urban or rural

Height and Weight variables are found in REC44, P78 Standard Recode Manual
