Hi,  
I have a question on Liberia Household survey on 2013 (lbhr6adt).  
the variables hv244 and hv245 are respectively "Owns land usable for agriculture" and "Hectares of agricultural land (1 decimal)".  
hv244, hv245 are all NAs for Liberia. Is it because those questions were excluded for Liberia? I briefly read the final report but I couldn't find the mention on agriculture variables.  
Thank you

Yes, those questions were not asked, as indicated by the "NA" preceding the variable labels.

HV244: NA-Owns land usable for agriculture  
HV245: NA-Hectares of agricultural land (1 decimal)
