I am interested in downloading the newly released Myanmar 2015-16 survey data. I believe I should have access to this, as I currently have access to all data via three separate projects. However, when I log in and view the countries under the three projects for which I have access to, Myanmar is not listed.

Please are you able to provide any advice in relation to this issue.

This is the very 1st Myanmar survey data released on our website. It would not have been in your previous account profile, since the country just got added. Please login to your account to request Myanmar, and then wait for authorization.
