Subject: Raw data access
Posted by ale_sovera on Mon, 29 May 2017 15:14:40 GMT

Good afternoon,

I would need to have access to Malawi 2015-16 raw data since I intend to build some variables that are not defined in the recoded file for what concerns individual dataset. Is there a way to get access to that or are they private?
Thanks

There is no such thing as a raw data file that includes information not in the recode files. Everything is in the recode files.
