Subject: Ethiopia treatment sources: more detail on country-specific labels?

Hi All,

I am attempting to use variables h12a-h12z and h32a-h32z in Ethiopia to look at treatment sources for ill children. However, the newest 2016 data set for Ethiopia has a large number of generic variable labels denoting country-specific categories ("cs public sector", "cs private medical," and "cs other sector"). The most common treatment source for diarrhea is h12b and it has the generic "cs public sector" label. Is there any way to back out what's behind these country-specific labels? (I was expecting a Word document offering more detail on the data in the zip file, but didn't see one). Ideally, I would be able to isolate CHWs from public facilities or private shop from other private facilities, for example.

Thank you.

Anthony

According to our data processing team the labels should be as follows. These will be included in the next release of the datasets:

H12A Diarrhea: government hospital  
 H12B Diarrhea: government health center  
 H12C Diarrhea: government health post  
 H12D Diarrhea: other public sector  
 H12E NA - Diarrhea: CS public sector  
 H12F NA - Diarrhea: CS public sector  
 H12G NA - Diarrhea: CS public sector  
 H12H NA - Diarrhea: CS public sector  
 H12I NA - Diarrhea: CS public sector  
 H12J Diarrhea: private hospital  
 H12K NA - Diarrhea: private pharmacy  
 H12L NA - Diarrhea: private doctor  
 H12M Diarrhea: private clinic  
 H12N Diarrhea: other private  
 H12O NA - Diarrhea: CS private medical  
 H12P NA - Diarrhea: CS private medical  
 H12Q NA - Diarrhea: CS private medical  
 H12R NA - Diarrhea: CS private medical  
 H12S Diarrhea: shop/ drug vendor  
 H12T Diarrhea: traditional practitioner  
 H12U Diarrhea: market  
 H12V Diarrhea: NGO health facility  
 H12W Diarrhea: other NGO health facility  
 H12X Diarrhea: Other  
 H12Y Diarrhea: no treatment  
 H12Z Diarrhea: medical treatment

H32A Fever/cough: government hospital  
 H32B Fever/cough: government health center  
 H32C Fever/cough: government health post  
 H32D Fever/cough: other public sector  
 H32E NA - Fever/cough: CS public sector  
 H32F NA - Fever/cough: CS public sector  
 H32G NA - Fever/cough: CS public sector  
 H32H NA - Fever/cough: CS public sector  
 H32I NA - Fever/cough: CS public sector  
 H32J Fever/cough: private hospital  
 H32K NA - Fever/cough: private pharmacy  
 H32L NA - Fever/cough: private doctor  
 H32M Fever/cough: private clinic  
 H32N Fever/cough: other private sector  
 H32O NA - Fever/cough: CS private medical  
 H32P NA - Fever/cough: CS private medical  
 H32Q NA - Fever/cough: CS private medical  
 H32R NA - Fever/cough: CS private medical  
 H32S Fever/cough: shop/ drug vendor  
 H32T Fever/cough: traditional practitioner

H32U Fever/cough: market  
H32V Fever/cough: NGO health facility  
H32W Fever/cough: other NGO health facility  
H32X Fever/cough: other  
H32Y Fever/cough: no treatment  
H32Z Fever/cough: medical treatment
