
Subject: Ethiopia treatment sources: more detail on country-specific labels?

Hi All,

I am attempting to use variables h12a-h12z and h32a-h32z in Ethiopia to look at treatment sources for ill children. However, the newest 2016 data set for Ethiopia has a large number of generic variable labels denoting country-specific categories ("cs public sector", "cs private medical," and "cs other sector"). The most common treatment source for diarrhea is h12b and it has the generic "cs public sector" label. Is there any way to back out what's behind these country-specific labels? (I was expecting a Word document offering more detail on the data in the zip file, but didn't see one). Ideally, I would be able to isolate CHWs from public facilities or private shop from other private facilities, for example.

Thank you.

Anthony

According to our data processing team the labels should be as follows. These will be included in the next release of the datasets:

H12A Diarrhea: government hospital
H12B Diarrhea: government health center
H12C Diarrhea: government health post
H12D Diarrhea: other public sector
H12E NA - Diarrhea: CS public sector
H12F NA - Diarrhea: CS public sector
H12G NA - Diarrhea: CS public sector
H12H NA - Diarrhea: CS public sector
H12I NA - Diarrhea: CS public sector
H12J Diarrhea: private hospital
H12K NA - Diarrhea: private pharmacy
H12L NA - Diarrhea: private doctor
H12M Diarrhea: private clinic
H12N Diarrhea: other private
H12O NA - Diarrhea: CS private medical
H12P NA - Diarrhea: CS private medical
H12Q NA - Diarrhea: CS private medical
H12R NA - Diarrhea: CS private medical
H12S Diarrhea: shop/ drug vendor
H12T Diarrhea: traditional practitioner
H12U Diarrhea: market
H12V Diarrhea: NGO health facility
H12W Diarrhea: other NGO health facility
H12X Diarrhea: Other
H12Y Diarrhea: no treatment
H12Z Diarrhea: medical treatment

H32A Fever/cough: government hospital
H32B Fever/cough: government health center
H32C Fever/cough: government health post
H32D Fever/cough: other public sector
H32E NA - Fever/cough: CS public sector
H32F NA - Fever/cough: CS public sector
H32G NA - Fever/cough: CS public sector
H32H NA - Fever/cough: CS public sector
H32I NA - Fever/cough: CS public sector
H32J Fever/cough: private hospital
H32K NA - Fever/cough: private pharmacy
H32L NA - Fever/cough: private doctor
H32M Fever/cough: private clinic
H32N Fever/cough: other private sector
H32O NA - Fever/cough: CS private medical
H32P NA - Fever/cough: CS private medical
H32Q NA - Fever/cough: CS private medical
H32R NA - Fever/cough: CS private medical
H32S Fever/cough: shop/ drug vendor
H32T Fever/cough: traditional practitioner

H32U Fever/cough: market
H32V Fever/cough: NGO health facility
H32W Fever/cough: other NGO health facility
H32X Fever/cough: other
H32Y Fever/cough: no treatment
H32Z Fever/cough: medical treatment
