Please how can I get the above named dataset for my PHD work.

I have attempted to apply for datasets but I was permitted to access survey data alone.

To request access to the GPS data file, please follow this link (https://dhsprogram.com/data/dataset_admin/login_main.cfm) and login in the "Registered Users Please Login Here" section. Once you've done so, please select your project from the dropdown menu on the landing page.

Please note that by default, the option to download GPS data is not visible. You must click "Show GPS Datasets". Clicking this will refresh the page with a new column of checkboxes which will allow you to request GPS data. Please request the data for [DATASET] and provide the necessary project description/justification. Once this is in the system, I will be able to approve the request.

I'm trying to access the 2014 GPS dataset for Cambodia (among others) and am having the same difficulty. I'm not able to find the "Show GPS Datasets" checkbox. Can you please advise?
