Are there Service Provider survey data that match the DHS survey data for Ethiopia?  
I am particularly looking for Service Providers data that has demographic and education information of Service Providers in Ethiopia.

We do not have any Service Provider Survey data for Ethiopia.

There was an Ethiopia 2014, SPA but the data are not in the public domain. The Implementing Agency is Ethiopian Public Health Institute (EPHI)

Hello, I am writing to ask if there is a way I can identify facility location (that is Urban Vs. Rural) from SPA data set.

Thank you,

Hello,

What is the difference between the two data sources (Facility Record and Facility Raw) within the

---

SPA data set. I am asking this because, a variable that I need (Service Provider Sex) is found in the Facility Raw data set but not in the Facility Record data set. Can I use the Facility Raw data set?

Thank you,  
Sebawit
