Dear DHS team;

Good morning. Please is there a way I could speed up the process to get the Liberia MIS 2016 GPS data to complete the data analysis part of my PhD thesis I'm submitting soon?

With kind regards;

Elise

Dear User,

The GPS data for Liberia MIS 2016 should be available in about 2 weeks. Please check back with us then. If it becomes available before that time, we will let you know. Thank you!
