Dear all,

I am looking for the NUMBER OF CHILDREN UNDER-FIVE by household wealth for my Concentration Index calculation. I wonder if someone can tell me exactly what indicator to choose from the statcompiler. Your response will be highly appreciated.

Dear User,
Please take a look at The Guide to DHS Statistics which can be downloaded from our website
http:// www.dhsprogram.com/publications/publication-dhsg1-dhs-questi
onnaires-and-manuals.cfm
You may also want to review the section on our website about Using Data for Analysis
http://www.dhsprogram.com/data/Using-Datasets-for-Analysis.cfm.  The Standard Recode Manual
is another valuable resource
http:// www.dhsprogram.com/publications/publication-DHSG4-DHS-Questi
onnaires-and-Manuals.cfm  After reviewing these resources, if you still have questions,
please feel free to post again.
Thank you!

Dear Liz-DHS,How can I creat the variables-Minimum Dietary Diversity (MDD), Minimum Meal Frequency (MMF), and Minimum Acceptable Diet (MAD) from KR file my sweety? Which variables are important to construct them from Ethiopia 2016 EDHS KR file Dataset?
Thank You in advance!!
