Hi, Im using this codes in kenya dhs 2014 and im not sure whether im right to estimate for under 5. V208(live births in last five year) and B5 (whether the child is live or not) Are this codes right or which ones should I use?

hello,

i think you can also make use of v222 and b5.

best regards,
Louis

Hi Louis I think b5 is enough as my outcome for under 5. right? I am also wondering which folder should I include? should i use the birth records or children file folder for my analysis?
