Dear Sir/ Madam,

I would like to make confirmation on where do I get information any research done by using Demographic health survey. If I would like to do topic on "Determinants of socio-economic factors influencing on under five mortality rate in Chin State", which kind of process do I need to proceed more. When I received the data, the attached information of need to mention the using of primary data of DHS. I would like to combine the findings with qualitative reserach on barriers facing by them and overcoming on these barriers by interviewing with Key Informant Personnel.

Best wishes,  
Lal Hrin Mawi
