Dear DHS Team,

I am using India NFHS-4 KR data(Stata) to calculate "knowledge of ORS packets" using variable v416 but the total no of women is not matching with the National report- table no 9.15.

Also, want to see the "Stool disposal practice(in case of the youngest child only" using the same KR data with ta v465[iw=wt] if b9==0, but it is not matching with the report table 9.16.

Can you please help in this regards?

Regards  
Jayanta

Dear DHS Team,

It would be helpful if you can revert my query.

Regards,  
Jayanta
