I recently downloaded the DHS data and prepared a manuscript with colleagues. But, I have a question for clarity on how to publish our paper or, is there any procedure that we have to follow?. In addition, I need ethical clearances for 2005, 2011 and 2016 DHS data of Ethiopia. Can anyone help me, please?

with regards

Dear Sir/Madam,

We have received data from DHS in April 2018. We analyzed the data and now published in the Journal of Environmental Health and Preventive Medicine as indicated in

<https://doi.org/10.1186/s12199-018-0737-9>.

How can we attach the journal article to your website?

With regard,

Abraham Geremew

We will add the article to the list of articles in peer-reviewed journals on The DHS Program website. We can add the abstract, but we do not add entire articles to the list. Congratulations on your publication.
