Subject: DHS recode manual in excel format?
Posted by alice.b on Mon, 14 May 2018 13:15:08 GMT

Dear Madam, Sir,

I am currently working with the DHS datasets. I was wonderning by any chance if you have the recorde manual in excel format (i.e. with the abbrevitation name of the variables in one column, and the description of them in a second column). Because in the PDF format, it is quite uneasy to read through all the variables and select the ones I want to use.

Many thanks in advance for your help.

Best regards,

Alice

Unfortunately, the recode manuals are not available in Excel format.
