Subject: Accessing Geographic Information

I need to sort the data by district (I want to apply Small Area Estimation techniques). I am hoping that the geographic data files have the information I need to do this. However, I cannot access these files. I have two questions:

1. How do I sort the data by districts?
2. How do I access the geographic data files?

Many thanks for your assistance
Kim

Please see this thread for the instructions to access the GPS data.
