Good day,

I am not certain why but I have observed that in the excel files with GPS data per cluster for the Haiti 2005 and 2012 DHS, there are clusters with no latitude and longitude. Specifically, 8 clusters in 2012 and 5 in 2005 and was wondering the reason behind this and if there might be another file where this informatio can be found.

Thanks in advance.

Michelle

Those clusters are missing and will be found at (0,0) and will be labeled as MIS
