Hello!

I want to replicate table 9.7 Time after delivery of mother's first postnatal checkup from Ethiopian 2005 DHS using stata software.

I could identified the exact/ appropriate variable code. I try to use m51\_1 but it use e.g. 102 to indicate days instead of using 102 to indicate hours.

Please I want somebody who can help me.

Dear User, We have just updated our Guide to DHS Statistics. Please check it out. There is a section on "Postnatal Care". Thanks! If you still have questions after reviewing, please feel free to post again. Thank you!
