I would like to know if it is possible to get information on the Local Government Area (LGA) names in any of the Nigeria MIS or DHS files. The files only contain an LGA code (in 2013 DHS this is variable slarea) while for example the GHS dataset by the World Bank contains the LGA names as well. This information would be highly useful. Thank you.

Hi, did you ever find the answer to this? I am also wondering the same.
