Hello,

I need guidance on the relevant variables on maternal deaths in Nigeria DHS 2013 (data set downloaded) and how to go about the analysis using SPSS version 25.

Thanks

Dear User, please check out the following resources:

Guide to DHS Statistics

The Standard Recode Manual

DHS YouTube Video series

Using Datasets for Analysis

Help with Stata

SPSS Tutorial

In addition, you can search the DHS User Forum for keywords and you can post your code. Other users in the DHS User Forum Community may be able to help.

Dear DHS Experts,

I read through the DHS manual recode and the guide to statistics and the video tutorials, many thanks for the resources.

I have been trying to generate commands in SPSS for my analysis but failed. Can someone please help with the appropriate commands for maternal mortality analysis. I'm using NDHS 2013.

Your help will be highly appreciated

regards.
