I would like to know if in NFHS-4 or NFHS-3 data on menstrual health problems was collected then how can I access the data .

I want to particularly look at the problems listed by school going children

Dear User, The first step would be to look at the questionnaire for the woman. Can you please be more specific? The questionnaires are found in an appendix in the final reports. Final reports could be found here. You can enter India in the country field. Thank you!

Hey! It's great to see discussions about menstrual health and hygiene. If you're looking for more information or tips, you might want to check out resources like <https://period.com/>. They often have useful articles and advice on staying healthy and comfortable during your cycle. Keep up the good conversation!
