Dear DHS,

I'm Dr May Phyu Lynn, MPH candidate from Ministry of Health and Sports.

With regards to the Table 10.4 Vaccination in first year of life, page 152, my findings did not match with that table particularly "Total percent in Measles"

I use "BR file".

Kindly request your opinion, please.

Regards!

Dear User, please refer to The Guide to DHS Statistics. It contains information on vaccinations. It gives guidance on which data file to use and the variables associated with the vaccinations. Check out the section on vaccinations starting on page 10.4. Thank you!
