Dear all,

I would like to know if the question 1001 ("In your opinion, what is the most serious health problem in your community") of the Tanzania DHS is specific to this DHS questionnaire or might be found in other ones.

I first looked into the DHS Recode Manual and in few other DHS questionnaires and could not find this question.

I would like to be sure that I did not miss it. Does anyone know how to be 100% sure that this question only exist in Tanzania DHS please ?

Thank you

Please see the following comment from Senior DHS Specialist, Kia Reinis:

The question has never been a core question, so it is a country-specific question. However, that doesn't mean another country hasn't added the same question to their survey. The only way to know for sure is to check the questionnaires which are in the appendix of the final country reports.

Hi Bridgette,

Thank you for your answer. I'll keep look at the other questionnaires.
