1. Family Planning and Sexual and Reproductive Health

Woman's Questionnaire:

Qst 201-242 (all of Section 2 - Reproduction: fertility, pregnancy, timing of pregnancy, menstrual cycle). The birth history (Qs 201-225) pertains to both fertility and mortality - mortality is classified under Maternal and Child Health.

Qst 301-330 (all of Section 3 Contraception).

Qst 405-407 (timing of pregnancy).

Qst 458-463 (amenorrhea, postpartum abstinence).

Qst 701-713 Marriage and age at first sex (marriage being one of the proximate determinants of fertility).

Qst 714 When last had sex (also referenced under HIV).

Qst 728-730 (brand, source of condoms).

Qst 803-822 (all of Section 8 - Fertility Preferences).

Qst 1042-1050 (sexually transmitted diseases other than HIV).

The Calendar (located on page 75, and instructions to interviewers through Sections 2 and 3).

Man's Questionnaire:

Qst 201-205, 208-215 (reproduction).

Qst 301-307 (contraception).

Qst 401-412 (marriage).

Qst 415 When last had sex (also referenced under HIV).

Qst 434-440 (method use).

Qst 504-515 (all of Section 5 Fertility Preferences).

Qst 727-735 (sexually transmitted diseases other than HIV).
