Hi,
I want to categorize the v426 in STATA by using PDHS-2013 as
*within first hour
*late
but I can't understand their codes. 0 labeled as immediately and 100 for within hour and 101 for hours:1 and 201 for days :1 where different numbers were used like 102,103 etc which command should i use to make my categorize.
I am using KR file

Thank you for your support
