Dear Sir,

I am working on Myanmar DHS 2015-16 women file and I can't find the variables for the following questions from women questionnaires;

SECTION 9. HIV/AIDS

911 LAST BIRTH SINCE JANUARY 2013 LAST BIRTH BEFORE JANUARY 2013.

912 HAD ANTENATAL CARE NO ANTENATAL CARE

According to the report, I found that a total of 1669 women gave birth in the past 12 years(table 13.10 page 226).

However, if I combine the number of women who are eligible for HIV counselling questions (v838a:v838c), it is more than 2,200 women.

Could you kindly know how to get the number of women who delivered in the past 2 years and of which, how many of them had antenatal care?

Thank you in advance!

phyumar
