Currently the datasets for geography and geospatial covariates are not available for download on the website along with the other datasets. How can we get the access to the files IAGC72FL.ZIP and IAGE71FL.ZIP?

We need this data to arrive at the distribution of certain variables at the smallest level of sampling.

Hello, did you find datasets for geography and geospatial covariates which are not available for download on the website along with the other datasets.

if Yes, how can one get the access to the files IAGC72FL.ZIP and IAGE71FL.ZIP?

I'm currently working on a project which requires these datasets.

Hope to get a positive reply.

Hi all,

Only IAGC72FL exists. It can be found here

<https://spatialdata.dhsprogram.com/covariates/>

best,

--Tom
