These requests for revisions are being submitted on behalf of Better Care Network, an international group of experts on children's care and demographers, and USAID's Center for Children in Adversity.

We have included 3 proposed revisions:

- 1) Information on non-resident minor children in the birth history
- 2) Maternal multipartner fertility
- 3) Start date of most recent union

This group's top priority is listed as number 1.

Thanks for your consideration.

Florence Martin
Director
Better Care Network
