Hello,

Even though I was granted access, I am unable to download the Geographic Data (IAGE71FL.ZIP) or the Geospatial Covariates (IAGC72FL.ZIP) for India, Standard DHS, 2015-16.

I thought it was a problem with my access but I opened a new project with an approved request for access and faced the same problem. Does this require any special permission? Did anyone else face this? It would be great if someone could point me towards how to access the file as it is vital for the analyses we are trying to do.

Thank you!

Sincerely,
Adnan
