Hello -

According to the survey search by country page (https://www.dhsprogram.com/What-We-Do/survey-search.cfm?pgty pe=main&SrvyTp=country) Nepal 2016 should be the most recent completed and available standard DHS survey. However, when I download the most recent DHS for Nepal, the v007 (year of individual interview) variable has "2073" for v007. Would someone mind explaining this?

Thanks in advance for the help!
Wendy
