Hello!
How can I find surveys (countries and periods) that include questions and data about vital registration?
I used StatCompiler and asked about related tables, but I'm not sure that it covers all questions in all surveys
Thank you

Try using the IPUMS-DHS site, which allows users to do a web-based search on a string or variable. If you click on the variable name, you can learn more about the variable, including its codes and frequencies, meaning, universe (who was asked the question), and question wording. Easily log in with your DHS user name email and password.
